

WiFi Connection Setup Guide

Connect to the company WiFi network using these instructions:

Network Information: - Network Name (SSID): CompanyWiFi - Security Type: WPA2-Enterprise - Authentication: Username/Password

Setup Instructions:

Windows: 1. Click the WiFi icon in the system tray 2. Select 'CompanyWiFi' from available networks 3. Enter your company username and password 4. If prompted for certificate, click 'Connect anyway'

Mac: 1. Click WiFi icon in menu bar 2. Select 'CompanyWiFi' 3. Enter username and password when prompted 4. Click 'Join'

Mobile Devices: 1. Go to WiFi settings 2. Select 'CompanyWiFi' 3. Choose 'WPA2-Enterprise' if prompted 4. Enter company credentials

Troubleshooting: - Ensure your account is active in the system - Try forgetting and reconnecting to the network - Contact IT Support at ext. 3000 if issues persist

Guest WiFi is available as 'CompanyGuest' with password 'Welcome2024' (changes monthly).
