

IT Support Ticket Creation Guide

Create IT support tickets for technical assistance using our ticketing system:

Access Methods: 1. Online Portal: support.company.com 2. Email: itsupport@company.com 3. Phone: ext. 3000 (urgent issues only) 4. Walk-in: IT Help Desk (Building B, 2nd Floor)

Ticket Creation Process: 1. Log into the support portal with your company credentials 2. Click 'Create New Ticket' 3. Select the appropriate category: - Hardware Issues - Software Problems - Network/Connectivity - Account Access - New Equipment Request - Other

4. Provide detailed information: - Clear description of the issue - Steps you've already tried - Error messages (exact text) - When the problem started - Business impact level

Priority Levels: - Critical: System down, business stopped - High: Major functionality impacted - Medium: Minor functionality issues - Low: Enhancement requests, questions

Response Times: - Critical: 1 hour - High: 4 hours - Medium: 1 business day - Low: 3 business days

Track your tickets online or via email notifications. Include ticket number in all communications.
