

Password Reset Procedures

Reset your company password using these self-service and support options:

Self-Service Password Reset: 1. Go to password.company.com 2. Enter your username 3. Choose verification method: - Security questions - SMS to registered phone - Email to alternate address 4. Follow verification steps 5. Create new password meeting requirements

Password Requirements: - Minimum 12 characters - At least one uppercase letter - At least one lowercase letter - At least one number - At least one special character (!@#\$\$%^&*) - Cannot reuse last 12 passwords - Must change every 90 days

Alternative Reset Methods: - Call IT Help Desk: ext. 3000 - Visit IT in person (Building B, 2nd Floor) - Email: passwordreset@company.com - Emergency after-hours: Security at ext. 2100

Account Lockout: - Accounts lock after 5 failed attempts - Automatic unlock after 30 minutes - Contact IT for immediate unlock - Lockout notifications sent to manager

Security Best Practices: - Use unique passwords for each account - Enable two-factor authentication - Never share passwords - Use password manager if approved - Report suspicious activity immediately

Forgot Username: - Contact IT Support with employee ID - Provide verification information - Username reminder sent to registered email

Two-Factor Authentication: - Required for all accounts - Use company-approved authenticator app - Backup codes provided during setup - Contact IT if device is lost/replaced

If you suspect your password has been compromised, change it immediately and report to IT Security at security@company.com.
