

Patrol Vehicle Inspection

PATROL VEHICLE INSPECTION

1. Pre-Shift Inspection

- Check all lights and sirens
- Test radio and computer systems
- Inspect tires and fluid levels
- Verify emergency equipment
- Document any defects

2. Equipment Checklist

- First aid kit and AED
- Fire extinguisher
- Traffic cones and flares
- Breathalyzer and field test kits
- Camera and recording equipment

3. Weapons Security

- Secure rifle in locked mount
- Check ammunition inventory
- Verify less-lethal options
- Test weapon locks

4. Post-Shift Procedures

- Clean interior and exterior
- Refuel if below half tank
- Report maintenance issues
- Secure all equipment
